

## Students Speak

**Sagar Amle**  
T.Y. BMS

The infrastructure at VSIT with latest technology has always created an environment to help students focus on academics. The on-going creative activities and sports balances the life of a student in Vidyalankar. The annual festivals, Vigour and Verve, encourages involvement of students from all streams. Being the cultural secretary in my second year and Event secretary in Third year helped me develop my leadership qualities. In addition to this, VSIT offered me a platform wherein I could present my case study on a National Conference Meet, where I bagged the Best Project award. I also presented my paper at Avishkar and qualified for the district level. Being in Vidyalankar made me believe in myself and identify my capabilities.

**Muvic Jain**  
T.Y. BMS

Excellent atmosphere, always ready to help staff, student friendly atmosphere and at above all excellent infrastructure, a perfect place to learn and develop your skills and discover hidden talent in you. One of the best colleges in Mumbai, VSIT helped me in developing new skills, talents and innovative thinking. A top quality infrastructure also helped me in gaining and sharing knowledge and set up of platforms to show case my different talents.

**Shruti Maheshwari**  
S.Y. B.Sc.(IT)

Vidyalankar School Of Information Technology has not only helped and guided us to become matured physically and mentally but has also worked towards helping us obtain qualified academic knowledge and get well prepared for the business world at the same time by Dale Carnegie sessions, guest lectures/speeches, etc. It has helped its students mould themselves fit for not only academics but for extra-curricular activities too. The College has made our lives interesting rather than just being a bookworm. The faculty, staff, every single member of Vidyalankar has always extended a hand of friendship and care. Doubts and queries are solved within no time by our well-trained faculty.

**Nrutika Wadambe**  
T.Y. BBI

The college ambience brings peace to the mind. I could have never imagined myself showing active participation in so many various fields apart from studies, such as anchoring for various events, the friendly behavior of the professors has helped me open up with more opinions and ideas. Talking about the benefits, Vidyalankar believes in providing the best of education through innovative and effective learning methods. Vidyalankar also provides scope for foreign studies which makes it quiet easy for those who wish to acquire education abroad in top universities. Overall if one sees, Vidyalankar is totally a perfect institute in order to achieve a successful career.

## Modern Courses Affiliated to University of Mumbai after Std.XII

BBI (B.Com in Banking and Insurance)  
BAF (B.Com in Accounting and Finance)  
BFM (B.Com in Financial Management).  
BMS (Bachelors in Management Studies).

**W**e are in an era of specialization which gives students a plethora of options to choose from and forge ahead with a lucrative career. The big question then is what is the right course to follow and which is the Institute that serves this purpose best? The answer lies in choosing a college that cares enough to run the most meaningful courses, taught by competent people, and in an ambient atmosphere that encourages holistic development. It is not difficult to find

which would inculcate training and a practical approach.

These courses train young professionals for modern banking, financial services and insurance sectors with knowledge, attitude and skills leading to an additional avenue of self employment by providing basic understanding and adequate exposure to operational environment and other related financial sectors." Avenues extend beyond borders and take students overseas to the US, California State University and

reason to worry. There are remedial classes for those who face any challenges in this.

Getting students industry ready involves more than academic knowledge. There is the Dale Carnegie Institute, whose able instructors initiate students into the realm of life skills. Two full days every semester make the students thoroughly competent in this regard.

Students are also put through aptitude tests, group discussions and personal interviews. All this

## Commerce Courses for New Generation

all this in one place when you are looking at VSIT (Vidyalankar's School of Information Technology) offering Science, Commerce and Management courses.

Vidyalankar offers challenging courses that can be pursued after Std. XII.

Does this work in the marketplace? The proof of the pudding is in the eating. HDFC Bank, HDFC Securities, Nirway Consulting and ABEDI are but a few of the companies that visit the Vidyalankar Campus to offer employment.

Says Heena Shah, "The Vidyalankar experience was an absolute eye opener. It brought before me avenues which I had never imagined".

Says the Managing Trustee, Mr Vishwas Deshpande about these courses "A professionally trained workforce is the need of the hour

Toledo actively collaborate with Vidyalankar for twinning courses, where two years are spent in India and two years overseas. Reasonable costs, no SAT scores needed, and all Visa arrangements looked after by Vidyalankar makes it a comfortable ride.

This gives us a realistic look at how attractive and effective the courses are. Yet, shopping always goes beyond merely the product and people look for a wonderful shopping experience. So, how does this work at Vidyalankar? Cut to the campus.

A sprawling 11 acre expanse in the island city is sheer luxury. Fully air conditioned classrooms and modern food courts build up a wonderful ambience. A full time faculty delivers lectures resulting in quality that can only come from commitment. Learning is fast paced, but there is no

makes them ready to take on the world. With so much happening, is there time for recreation? Indeed there is, and this avenue is explored to the hilt.

The "Shanivar Manch" a Saturday afternoon filled with cultural activities and "Verve", the annual festival allow the students to show case their talent, indoor and outdoor games, all add up to the holistic growth of the students.

Ample parking space, a unique printing facility that allows students to fire prints from remote locations and retrieve them at convenience, Food Courts serving affordable, wholesome and hygienic food, a souvenir shop, photocopying facility and fully furnished seminar halls, equipped to screen movies both for recreation and learning, are some of the special features of the Vidyalankar campus.

## A COLLABORATIVE EFFORT

**V**idyalankar Institute for International Education (VIEE) offers multi-disciplinary programmes in the field of biology, computer science, software development through its collaborations with UK.

International collaboration dates back to University for the four-year Bachelor's in information science and technology programme, students study the initial two years followed by two years at Penn State.

followed by its association with the University for BS in computer science. As a part of the programme, students study for three years at Vidyalankar, California State University, in their fourth

year as collaborated with Aston University to

complete their degree in software engineering. As part of the tie-up, students complete their first two years at Vidyalankar and get transferred to Aston University, UK, in the third-year. In another tie-up with the Sheffield Hallam University, students complete their first two years at the institute and the last two years at Sheffield in the third year.

A range of management programmes, with two years at the institute and the last two years at Toledo or California State University.

The teaching methodologies employed at universities in the US and UK, faculty members take part in joint 'Teaching Learning Assessment Workshops' every year. For more information on the international programme can contact Shweta Apte at 4232 4232.

"Vidyalankar strikes a balance between academic and extracurricular activities, which allows students to grow holistically."

Aditya Balgi

BS (IST) Penn State University,  
Dellote-IT professional

"One of the things I have learnt from this course at Vidyalankar, is the importance of meeting deadlines, which requires intense time management, which is well defined and implemented. The pedagogy used back in India is different from the methodology followed here and therefore my experience at Sheffield Hallam. I have got exposure to a professional work environment, which has enhanced my employability in the
